Photograph & Activity Consent Form

Child:	Class:
Would you allow your child to participate in the following activities?	
<ul style="list-style-type: none">- Child appropriate cooking classes- Face Painting- Water Play- Events/ Celebrations- Walks outside the nursery and in the local park	

During our nursery day, we usually take photographs and/ or videos for a number of reasons, primarily to ensure we can share the children's experiences with you.

Please indicate which of the following you give consent for to use photographs/videos):

- Kids World Website
- Kids World Brochure, flyers and other advertising material
- Social Media (e.g. KWN Facebook page)

Please also be informed we may record your child's image on video for observation purposes and in school events or special classroom activities.

Please also note:

On occasion, your child's photograph/video clip as part of a larger group doing an activity or during events (when class group photos and videos are taken), may be uploaded onto Kids World's website/social media, or included in scrapbooks, communication books, etc. of other children within the same classroom. This is difficult to avoid and is often necessary to show peer interaction/group work amongst children.

By signing the bottom of this form you are agreeing to all of the above. You also give permission for other parents/carers to take group pictures (still/moving) with their personal devices for their personal use only during nursery events (e.g. sports day, concerts etc.)
